# PATIENT SUPPORT & REHABILITATION CLINIC

“Your illness doesn’t define you. Your strength and courage does.”

- Cancer is a common illness.
- Having said that, the outcome of various cancers has improved with developments in technology, anti-cancer drugs and healthcare.
- We at Basvatarakam Indo-American Hospital and Research Institute aim at bringing you the best in medical care/technology to help you in your journey fighting cancer.
- We also very well recognize that the illness brings about a lot of unrest and emotional turmoil for the sufferer and his/her family.
- Many a time in the hurry of things you might have missed asking questions or have queries that bother you.
- This could relate to your illness, the treatment given (Chemotherapy, Radiotherapy and/surgery,) what diet you should take, issues regarding activity and resuming life (be it work or marital life,) or other social issues.
- Research indicates that the outcome of your illness would be better if depression and other mental health issues are addressed.
- With these thoughts in mind we bring to you **“Patient Support & Rehabilitation Clinic”** -a multi-disciplinary team of Doctors (Psychiatrist, Oncology doctors) Dietiticians, Physiotherapists and Medico-Social Workers.

- If you or your family members are feeling low, having improper sleep/appetite/low energy levels, having pain hampering your daily life or are battling with any of the issues mentioned above, drop into our **“Support and Rehabilitation Clinic”** on specified days and timings as given below.

## Special Rehabilitation Clinics from 2.00PM to 4.00PM for

- Ca. Larynx, Oropharynx and Esophagus every Wednesday
- CA. Cervix and Gynecological Cancers (CA. Cervix, Ca. Ovary, Ca. Endometrium etc.) on every Thursday and
- Ca. Breast on every Friday
